## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3-8, 10-15 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The "based on" (see claim 4, line 2 for example – there are occurrences in the other claim) for reads on a nebulous mental step conducted prior to the manipulative steps of the claimed process, hence rendering the present process claim unclear in meaning in scope. If applicant wishes to patent detail controls over the recited process, the process steps must be positively recited. See Seagram & Sons Inc. vs Marzall, 84 USPQ 180. In other words: it is unclear whether one can copy applicant's invention completely (without infringing) merely by using a determined range or any other range that is not selected or based on – but is otherwise in the 0.5D-0.9D range. It appears that applicant merely rephrased the "predetermined" language with the intent to claim the same thing – a mental step – which can only be ascertained by mind reading –or so it would seem.

### ***Claim Rejections - 35 USC § 103***

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of

Art Unit: 1731

the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claim 1, and 3- 7 and 21-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ishikawa 5306322.

See how Ishikawa was previously applied.

Claims 8, 10-15 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ishikawa 5306322 in view of Antos 6289698.

See how Ishikawa is applied in the prior Office Action.

### ***Response to Arguments***

Applicant's arguments filed 7 February 2007 have been fully considered but they are not persuasive.

Applicant argues that submitted graphs 1-2 show unexpected and important results. It is noted that Applicant has failed to show the results are truly unexpected. Applicant merely concludes the "significantly decreased" error is unexpected – but this appears merely to be a conclusion. Just because something is "significant" it does not make it unexpected. Just because applicant asserts something is unexpected, it does not make it unexpected. Evidence is required.

#### **From MPEP 2145 Consideration of Applicant's Rebuttal Arguments**

##### **I. ARGUMENT DOES NOT REPLACE EVIDENCE WHERE EVIDENCE IS NECESSARY**

Attorney argument is not evidence unless it is an admission, in which case, an examiner may use the admission in making a rejection. See MPEP § 2129 and § 2144.03 for a discussion of admissions as prior art.

The arguments of counsel cannot take the place of evidence in the record. In re Schulze, 346 F.2d 600, 602, 145 USPQ 716, 718 (CCPA 1965); In re Geisler, 116 F.3d 1465, 43 USPQ2d 1362 (Fed. Cir. 1997) ("An assertion of what seems to follow from common experience is just attorney argument and not the kind of factual evidence that is required to rebut a prima facie case of obviousness."). See MPEP § 716.01(c) for examples of attorney statements which are not evidence and which must be supported by an appropriate affidavit or declaration.

It is further argued that Ishikawa fails to teach or suggest a ratio together with an eccentricity error of the core as recited in the claimed invention. Examiner does not understand this argument. The claims do not limit any error.

The Kamio/Yosbida declaration has been reviewed. Examiner sees nothing in it which shows the present invention is nonobvious. Examiner is not disputing that Applicants found "tremendous advantages" – however this is insufficient to demonstrate non-obviousness. Nor is there anything in the record which demonstrates that such is evidence of non-obviousness.

**From MPEP 716.02(b) [R-2] Burden on Applicant:**

**II. >< APPLICANTS HAVE BURDEN OF EXPLAINING PROFFERED DATA**

"[A]ppellants have the burden of explaining the data in any declaration they proffer as evidence of non-obviousness." Ex parte Ishizaka, 24 USPQ2d 1621, 1624 (Bd. Pat. App. & Inter. 1992).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Hoffmann whose telephone number is (571) 272 1191. The examiner can normally be reached on Monday through Friday, 7:00- 3:30.
